Warranties

Our Funeral Home makes no representation or warranties about the protective value of certain caskets or other burial containers other than those made by the manufacturer. The only warranties expressed or implied granted in connection with goods sold with the funeral services are the express written warranties, if any, extended by the manufacturer thereof. No other warranties of merchandising fitness for a particular purpose are extended by the seller.

*Wilbert Sealing Vaults

Are impervious to the entrance of grave side substances and moisture. They are completely sealed with a butal caulking that once closed will never be able to be opened again. A sealed vault also protects the environment by preventing the leakage of decomposition into the earth and ground water.
